Prometheus Team Medic Course Course

Course Overview

Providing medical care in overseas and remote locations is far more than first aid in an unfamiliar environment. Medics need to be equipped with the knowledge and skills to effectively plan and provide comprehensive medical care while knowing when to seek further medical assistance. The Prometheus Team Medic Course provides this specialist training for the overseas and remote medic.

Aim

The Prometheus Team Medic Course builds on core medical skills and trains the medical provider to plan and provide medical care specific to overseas and remote hostile environments.

Entry Criteria

FREC 3, FREC 4, FPOS (Intermediate), CMT Class I (or service equivalent), EMT or Paramedic.

Course Content

The course focuses on the development of autonomous decision-making abilities and equips students with the up-to-date specialist knowledge. Training includes elements of remote trauma management, as well as environmental health, primary care, dental first aid, tropical medicine and medical planning. The syllabus includes:

- Medical Planning
- Travel Health
- Field Health and Hygiene
- Environmental Health
- Primary Care
- Safe Prescribing
- Dental First Aid
- Tropical Medicine
- Heat Illness & Cold Injuries
- Altitude Illness
- Wound Care and Suturing

- Field Trauma Management
- Casualty Evacuation

Skills workshops include familiarisation with supraglottic airways, intravenous access techniques, management of tension pneumothorax and wound closure methods.

Certification

The Royal College of Surgeons of Edinburgh.

On-site accommodation is available on a limited, first come – first served basis (B&B basis, ensuite, single rooms) for courses delivered at the Hope-under-Dinmore training venue. Please phone the office on +44(0) 1568 613942 if you would like to book accommodation.
